

As a condition of approval, the school shall submit a copy of the course syllabus to the school superintendent for review and approval. The school superintendent shall ensure that the course syllabus meets the requirements of the state curriculum standards and the school district's policies and procedures. The school superintendent shall also ensure that the course syllabus is consistent with the school district's overall educational goals and objectives.

III. Procedure for Approval of Sections of Existing Courses

The school superintendent shall ensure that all sections of existing courses are approved by the school superintendent. The school superintendent shall review and approve all sections of existing courses that are proposed for the following year. The school superintendent shall also ensure that the sections of existing courses are consistent with the school district's overall educational goals and objectives.
