

How to use the Document Camera with Panopto

Start a new recording session

In the **Primary Sources Panel** perform the following steps:

1. From the **video dropdown menu** select the main camera. If the camera is built into the computer/laptop, it will likely be named after the computer. If it is a USB camera it will likely contain "logitech" in the name.
2. Select **"Add Another Video Source"**
3. From the **video dropdown menu** select the document camera. The Document camera will now be displayed as a secondary source.
